ABOUT

My biggest passion is solving problems and since I was a child my whole world revolved around looking for problems and solving them, in a lot of cases using code. I am highly capable and confident in all aspects of hard work and intellectual challenges, and I have a strong sense of pride and aspiration to bring myself and the team I'll be a part of to excellence.

SKILLS

JavaScript | **TypeScript** | **CSS/SCSS** | **Vue** | **Vuex** | **React** | **Redux** | **JQuery**

NodeJS | **MongoDB** | **Mongoose** | **Socket.IO** | **Express** | **Java** | **Figma**

PROJECTS

Wewix — Full-Stack Developer (Website builder similar to Wix)
Vue | Vuex | NodeJS | Socket.IO | MongoDB | Express | SCSS | Figma

- Contributed to the development of Wewix as a member of a three-person team, utilizing full stack technologies and frameworks to implement core features and functionality.
- Led the design efforts for the entire app, including the home page, dashboard, website editor, live chat, and all other components, with a focus on UX and responsive design.
- Worked collaboratively with the team to ensure that the app was delivered on time and to the desired level of quality, completing the project within a tight 12-day deadline.

REPO: diego-mc.com/gh/wewix

Twitter Clone — Full-Stack Developer (Clone of the Twitter web app)
TypeScript | React | Redux | Express | MongoDB | Mongoose | Socket.IO | NodeJS | SCSS

- Developed the entire app from end-to-end while following the current best practices for working in React & TypeScript.
- Utilized JWT for authentication.
- Implemented Redux's best practices, including RTK Query, to keep data up-to-date while using optimistic and pessimistic data fetching strategies.

EXPERIENCE

Aug 21 – Aug 22

IDF — Human Resource Officer
Previously Deputy Officer

- Led and supervised a team of approximately 5 soldiers, sometimes commanding larger groups as required, while also managing HR matters for a team of approximately 500 soldiers, delegating tasks as necessary.
- Utilized tools and wrote code to improve efficiency, creating scripts that automated manual tasks.
- Consistently delivered strong performance under high pressure and demand, meeting targets and maintaining high personal standards, while also quickly learning and adapting to any situation.

EDUCATION

Sep 22 – Dec 22

Coding Academy — A MisterBit Bootcamp
Full-Stack/Front-End 640+ hour bootcamp

2015 – 2019

Self-Study — Web Development
Thousands of hours of self-study on web development, including courses, research, and tackling data structures and algorithms problems, primarily using C#, Java, React, JavaScript, and CSS

LANGUAGES

Hebrew (Native) | **English** (Fluent) | **Spanish** (Intermediate)
